## Professional Profile

Experienced Software Developer with 2+ years of expertise in developing custom web applications using Vue.js and modern technologies. Skilled in full-cycle development, cross-functional collaboration, and delivering scalable solutions that align with business objectives. Adept at solving complex challenges and driving impactful results through seamless integration of frontend and backend systems.

## Work Experience

### Senior Software Developer (2 Years)

2023 – April 2025 | Softvation Company Limited (Software House – Customized Software Solution)

- **Software Development** – Designed and implemented custom web applications using Vue.js and specialized libraries, focusing on scalability, performance, and seamless integration with backend systems.
- **Project Management** – Planned and prioritized tasks, guided teams to meet deadlines, and documented all project phases to ensure transparency and consistency.
- **Customer Collaboration** – Gathered requirements, reviewed and validated ATP, and provided end-user training to ensure successful implementation and client satisfaction.

*Key Projects:*

#### Facility Asset and System Management

- Led a team to develop a customized web application for managing facilities, including buildings, floors, rooms, racks, and assets. The system also monitors sensor values to minimize downtime and streamline infrastructure maintenance.

#### Internal Web Portal

- Collaborated with the team to create a web-based solution for managing customer contract data and handling a ticketing system, improving efficiency in resolving customer issues.

#### Adaptive Network Monitoring System

- Worked with the team to develop a web application that integrates with Cisco switches, enabling real-time monitoring and identification of abnormal network events.

### Software Developer

2022 | Primo World (Software House - Customer Loyalty Programs)

#### Coupon Redemption Module

- Developed a bilingual website user interface to facilitate coupon redemption, ensuring smooth handling of coupon expiration and timeout scenarios.

#### Core Prototype Customer Loyalty Programs Website

- Collaborated with the team to design and implement a prototype website, focusing on user interface functionality for managing merchandise and shop branch details.

### Internship

2021 | National Telecom Public Company Limited (NT)

- Collaborated with the team to develop a web application for storing and displaying customer data, replacing an outdated system that was incompatible with modern web browsers.

## Education

### Bachelor of Engineering Program in Computer Engineering (B.Eng.)

King Mongkut's University of Technology Thonburi (KMUTT) | GPA: 3.31 (Second-Class Honors)

#### Senior Project (in collaboration with NT Company)

- Led the planning, design, and development of a web application for configuring routers and switches using private blockchain technology. Collaborated with the team to deliver a secure and efficient solution.

#### Software Engineering Project

- Applied software engineering principles to design and develop a prototype for a Movie Theater Management Web Application, demonstrating a full-cycle development process.

## Technical Skill

**Web Technologies:** Vue.js, HTML5, CSS, SCSS, JavaScript, Bootstrap, vue-bootstrap

**Version Control Technologies:** Git, GitHub

**Design Tools:** Figma

**Agile Tools:** Jira, Trello

## Language

**Thai** (Native), **English** (Intermediate, B1 - B2)
